OLEKSANDR KHYZHNIAK

FRONT END DEVELOPER

ABOUT ME

Junior Vue Frontend Developer with 4+ years in a product environment. Built data-driven landing pages, printable reports, email templates and internal pages based on Salesforce CRM data. Focus on clean, responsive and interactive UI. In personal projects I use HTML/CSS, JavaScript, Vue 3 and TypeScript, and I have portfolio projects with this stack. Looking for a team where I can develop my frontend skills, keep learning by practice, and contribute to real features.

WORK EXPERIENCE

ASCENDIX TECHNOLOGIES
Remotely
Dec 2025 - Present

FRONT END DEVELOPER

- Develop responsive UIs using HTML5, CSS (BEM), and modern JavaScript.
- Collaborate with the marketing team and designers to gather requirements for new landing pages and to update existing ones.
- Create and maintain email layouts, fixing rendering issues across major email clients.
- Build pet frontend projects (HTML/CSS, JS, Vue 3, TS) for self-development and practice.
- Explore AI chat integration as a learning initiative.

KEY ACHIEVEMENTS

- Created landing pages for the company's key product projects.
- Built a requirements-capture form for reports, based on clarified client inputs, which streamlined the workflow and improved delivery speed and consistency across the team.

**ASCENDIX TECHNOLOGIES**
Remotely
Aug 2021 - Nov 2025

REPORT DEVELOPER

- Designed and built printable, email, and web templates in the Composer report-generation editor using Salesforce data as the source.
- Estimated scope and effort for new templates and change requests; reported technical limitations and suggested workarounds.
- Coordinated communication between clients, consultants, and concierge specialists to deliver and fix templates on time.

KEY ACHIEVEMENTS

- Created a step-by-step user guide on building printable templates in Composer with Salesforce integration, adopted by consultants and new team members.
- Delivered ongoing support to consultants and clients by running demos, trainings, and Q&A sessions on using the Composer product.
